New Products and Special Offers

Logistic Operator

We are logistic operator in the sectors of **editorial, audiovisual, domestic equipment, pharmaceutical and hospital sectors**. Albatir Eurologistica is known as a reliable and professional company in the international market. Collaborating with us... means improving.

[Albatir Eurologistica s.r.l.](#)

Structural Slab on Piles

The steel fibres used are the AFT+ 1/60, a 60mm (2.4") long undulated fibre with a diameter of 1mm (0.039") and a wire tensile strength of 1450 N/mm² (210 ksi). **These fibres have been specially developed and tested for structural applications**. The dosage rate in concrete is very high, from 40-50 kg/m³ (67-84 lbs/cu. yd).

[Twintec](#)

AC Speed Controllers

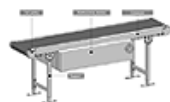

Latest generation, providing high torque, responsiveness and superior speed regulation over the traditional motor systems.

Curtis AC induction motor speed controllers represent the next level in drive systems for a wide range of material handling, industrial and light on road vehicles, offering lower maintenance, higher performance and greater flexibility.

Product Highlights

Central Drive Belt Conveyor

By virtue of its modular system design, which provides many possibilities for adaptation to suit individual demands, the Belt Conveyor TS 1100 with Central Drive **is suitable for almost all conveying tasks encountered in internal material flow systems**. It can handle packed and unpacked unit loads.

[Transnorm System Ltd.](#)

Truck

A model of high constructional solidity, it features a tough frame, seal-holderbox, wheels and clutch. The disks are linear, loading is front and it has an internal metallic brace for a better reels holding.
