Product Highlights

[Combilift Ltd.](#)

Gas/ LPG Stand-Up Side-Loader

Combilifts' IC GT Series was developed **in response to the markets' need for a robust and reliable Stand-up Side-loader**. The Gas/LPG powered engine and hydrostatic drive allows this side-loader to be used in very narrow aisles both indoors and outdoors.

[Moveel s.r.l.](#)

Compact Pallet Racking System

Using racking and compact systems **it is possible to exploit to the utmost the space a company has reserved for warehousing** and with the same occupied surface it increases the warehousing capacity. With the traditional fixed structures of mobile bases on rails it is possible **to increase to more than 90% the stored goods**. The elimination of all the aisles except one guarantees the maximum load density saving time for a better warehouse management.

[Schoeller Arca Systems Ltd.](#)

Pallet Cover

- Sizes: 1200 x 800mm, 1200 x 1000mm
- Fit over the content
- Areas for etching or marking and structuring for labels
- Crimps for belts
- Security belts
- Security corners

[Axiom GB Ltd.](#)

Popup Roller Sorter

It was developed in house by Axiom, **as part of a project for high speed sortation of media, specifically DVD's and VHS**. The sorter consists of a drive module, an idle module, a main sortation body and popup roller carriages. Sorter carriages can be inserted into the main sorter body at a pitch to suit the clients requirements.

[MACS Software Limited](#)

Production Costing System

The latest addition to our suite of products, PCS (production costing system) is a comprehensive tool that allows industry to **manage the purchase (or production) of components and consumables required to manufacture products, together with the building and costing of those products** (including labour).
